*Canadian Volleyball players on the whole, practice below the recommended number of hours, while competing far above the recommended hours. Coaches and athletes should consider the team goals, balance, recovery and the pursuit of excellence when planning the amount of practice and competition time for the team. Also note, that perhaps only a few athletes on a team have chosen the above high performance pathway for volleyball. These athletes may seek practice time outside of standard club practices, in order to reach their full potential.*
